

MTKJ-v1

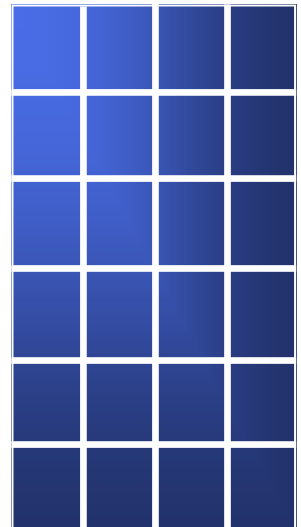

TOOLESS MODULAR JACK

The new Raxxes™ tooless modular jack is center balanced to Category 6 specifications and has positive PSACR beyond 300 MHz (channel). With the 4+Gbs of Bandwidth (channel) it exceeds IEEE 802.3af DTE Power specification to 4X the standard. It also exceeds IEEE 802.3ab Gigabit Specification to < 1 * 10⁻¹³ and is backwards compatible to Category 3, 5 and 5e. The IDC pair splitting tower allows for minimum disruption to cable twist and exclusive toolless termination reduces termination time by 75%. Standard Raxxes jack is available in 6 different colors. The termination towers easy pair splitting simple lacing and snapping on cover. The MTKJ-v1 jack

can be used in multimedia configurations with customizing all workstations, consolidation points and telecommunication closets. This jack is suited for vertical termination ideal for patch panel .The internal PCB I pins are soldered adding to the rigidity of the product . Also range of frequency test fall in the range of 250Mhz to 300Mhz well in the Cat 6 range of products

Ordering Information:

Part Number	Color	Description	Packaging
MTKJ-v1-RD	Red (RD)	Raxxes Cat 6 Tooless Modular Jack	1 piece per package
MTKJ-v1-YL	Yellow (YL)	Raxxes Cat 6 Tooless Modular Jack	1 piece per package
MTKJ-v1-BU	Blue (BU)	Raxxes Cat 6 Tooless Modular Jack	1 piece per package
MTKJ-v1-GR	Green (GR)	Raxxes Cat 6 Tooless Modular Jack	1 piece per package
MTKJ-v1-BL	Black (BL)	Raxxes Cat 6 Tooless Modular Jack	1 piece per package
MTKJ-v1-WH	White (WH)	Raxxes Cat 6 Tooless Modular Jack	1 piece per package
