

HORIZONTAL HINGED CABLE MANAGER FRONT

RAXXES Horizontal Hinged Slotted Duct System provides a simple solution for fiber and copper cable organization and management. The horizontal Hinged slotted duct comes in both one rack (1RU-1.75") unit sizes to accommodate both small and large cable systems. Front Only or Front & Rear configurations are available and mount on standard 19" TIA equipment racks with top, bottom or side cable entry. Unique spacers allow the duct to be used to its full capacity, while providing an efficient use of space. RAXXES system also includes vertical ducts and an array of accessories making it ideal for efficient, adaptable rack and frame cable management

The wire manager comes with the added rear duct for extra cable run between patch panel and switch.
